

# CIPE Strategic Priorities

## Education

- Develop a longitudinal, integrated IPE core curriculum across 7 educational programs
- Develop complementary comprehensive assessment plan
- Develop technological infrastructure to support curriculum and assessment
- Strategically add new professions/GME

## Practice

- Learn best practices in patient-centered collaborative care clinical practice education
- Partner with clinical entities to create patient-centered collaborative care clinical practice sites
- Identify technology needs
- Establish collaboration with other academic institutions (SLU)
- Disseminate information

## Community

- Implement a professional development plan
- Support extracurricular student activities

## Research

- Support development & dissemination of scholarship
- Determine process for involving students in research

Center for Interprofessional Practice and Education at Washington University Medical Center

*a collaboration between Goldfarb School of Nursing at Barnes-Jewish College, St. Louis College of Pharmacy and Washington University School of Medicine*

*August 2020*

Implement a professional development plan

Support extracurricular student activities

Develop integrated, longitudinal curriculum

Develop complementary comprehensive assessment plan

Develop technological infrastructure to support curriculum & assessment

Strategically add new professions/GME

Learn best practices in patient-centered collaborative care clinical practice education

Partner with clinical entities to create patient-centered collaborative care clinical practice sites

Identify technology needs

Establish collaboration with other academic institutions

Disseminate information

Support development & dissemination of scholarship

Determine process for involving students in research
